The screenshot shows a web browser window with the address bar displaying `online.u2u.be/courses/25896/modules/19/24874`. The page content is a presentation slide titled "Introducing OWASP Juice Shop" with the U2U logo in the top right corner. The slide lists four bullet points about the application. The browser's left sidebar shows a course navigation menu. The Windows taskbar at the bottom displays the date and time as 6:50 PM on 12/29/2023.

Introducing OWASP Juice Shop

- Built in 2014 as a modern exercise for web application security training
- At first sight, it looks like any other web shop
- Contains over 80 challenges to exploit security vulnerabilities
- Challenges range from ★ to ★★★★★★ in difficulty

The screenshot shows a web browser window with the address bar displaying 'online.u2u.be/courses/25896/modules/19/24874'. The page title is 'Installing OWASP Juice Shop'. On the left, there is a sidebar with a user profile and a list of modules. The main content area features a large heading 'Installing OWASP Juice Shop' with the U2U logo in the top right corner. Below the heading, there is a list of three bullet points. The second bullet point includes a red URL. The bottom of the image shows a Windows taskbar with various icons and system information.

Installing OWASP Juice Shop

- The Juice Shop is a Node.js application that uses all sorts of modern frameworks and libraries
- You can host the web shop however you want
 - <https://bkimminich.gitbooks.io/pwning-owasp-juice-shop/content/part1/running.html>
- In the lab that follows, we will host it locally (source files provided)
